Interurban Rail Plan Offers Ohio’s Elderly and Disabled Transportation Choice

A plan to link the majority of Ohio’s more than 150 colleges and universities by passenger rail holds the potential of creating a statewide transportation system all Ohioans could use. Referred to as the Ohio Higher Education Rail Network (OHERN), the plan would create a safe and low cost system which the majority of Ohioans could use and access from many small towns and cities in the state.

BENEFITS FOR ALL

Passenger rail service would operate daily from 6am to midnight, seven days a week, 365 days a year using safe, clean and comfortable ADA compliant train sets with dining services.

How you can help

Learn more at OHERN.ORG.

Discuss the plan with others and encourage members of your various clubs, organizations or church group to learn about it.

Mention the plan to your local transportation providers and encourage them to support it.

This plan provides service city-to-city, not within cities, so it won’t hurt your local transportation provider.

Talk to your regional Area Agency on Aging about the plan.

Write a letter in support of the plan to your local newspaper.

RELAXING ONBOARD - Each train set comes with comfortable seating, wide aisles and ADA compliant seating areas giving you and your friends room to relax.

VISITING WITH FRIENDS - OHERN train service gives you the time, comfort and luxury to meet with friends, laugh, share ideas and stories and plan your next trip together.

COVERING THE STATE - With stations and stops in many cities and small towns across Ohio, OHERN will provide year-round passenger rail service to the majority of Ohioans.
